MEMORANDUM OF UNDERSTANDING
BETWEEN
HOCKINSON EDUCATION ASSOCIATION AND HOCKINSON SCHOOL DISTRICT
March 1, 2021

The Hockinson Education Association (Association) and the Hockinson School District (District) agree to the following related to the reopening of school for the 2020-21 school year amid the virus that causes the illness COVID-19. This agreement only pertains to the reopening where students are engaged in remote, hybrid learning or the Hockinson Virtual Academy.

This Memorandum of Understanding (MOU) is the agreement between the Association and the District regarding the changes in the conditions of wages, benefits and working conditions for the Association members for the 2020-2021 school year. This agreement is consistent with the relevant federal, state, and local health agencies and educational requirements.

The parties have a mutual interest in protecting the health and safety of students, families, employees, and the community. They also share a mutual interest in ensuring that a high-quality education is accessible to all students including, but not limited to, students of color, students living in poverty, students who identify as LGBTQ+, and students receiving special education and English language learners. The parties recognize that the COVID-19 pandemic is an unprecedented and still developing situation that may require further communication and additional agreement.

The parties agree to the following:

Modes of School Operation for 2020-2021:

1. After considering the DOH, CCPF, CDC, and OSPI guidelines and/or requirements, the Board will determine the mode by which school will be conducted for the 2020-2021 school year. Modes of school operation may include, but are not limited to: (a) remote (i.e., online) instruction for all students; (b) remote instruction for most students, with certain high-needs students (e.g., students with disabilities, English Learners-ELs, Learning Assistance Program-LAP students, students at-risk, etc.) receiving in-person instruction (c) a phased in “hybrid” approach that combines in-person instruction for all or most students with remote instruction; (d) in-person learning considering the most recent guidelines from OSPI/DOH and (e) a return to regular school operations, with modifications to address any ongoing effects of COVID-19. When trends are increasing, as defined by Clark County Public Health, pause expansion of additional in-person learning and maintain access to in-person learning for those who have it. Schools are not required to reduce in-person learning or revert to remote learning based on metrics if the school can demonstrate the ability to limit transmission in the school environment. The parties recognize and agree that the Board may change modes at its discretion consistent with the recommendation from the DOH and in consultation with CCPF, as the COVID-19 situation evolves. (HEA/HSD will reopen this MOU when the Board proposes a change in mode of operation) See table attached.
2. Elementary will continue with an AM/PM hybrid model.

*Middle and High School will have a full-day hybrid AB Wed AB schedule with the following scheduled start dates: If the MOU is ratified on a Monday, Tuesday or Wednesday, the first day back for full-day 6th grade and 9th grade hybrid would be the following Monday with 7th and 8th and 10th, 11th, and 12th grades the following Thursday while 6th grade and 9th grade attends remotely for two days. If it is ratified on a Thursday or Friday, the first full-day back for 6th grade hybrid would be the following Thursday with 7th and 8th and 10th, 11th, and 12th grades the following Monday while 6th grade and 9th grade attends remotely for two days.

*For mixed grade classes students not yet on campus can zoom in.

Wednesday at the Middle School and High School will be designated for the following teacher responsibilities:
- Teacher planning for asynchronous learning
- Providing student intervention support, equity support
- Supervision of state assessments
- Teacher collaboration and
- Scheduled office hours

Teachers may choose to work from home if they are not required to provide these responsibilities in-person, i.e. student intervention support.

3. The parties agree to reconvene should the District make further changes to school operations that affect wages, hours, or working conditions that are not addressed by this MOU, the District will provide the Association leadership and employees 5 work days advance notice of a possible change to the mode of school operation. The parties will meet within 5 workdays of this notice, unless otherwise mutually agreed upon.

4. To meet the needs of specific students, staff may at their discretion reschedule nonsynchronous portions of their day to provide direct support or services to students outside of their normal contract hours.

5. The district shall investigate and invest in appropriate technology to allow staff to conduct evaluations, testing, and progress monitoring online where feasible.

Student and Staff Health Precautions

1. The District will implement District-wide health and safety protocols that will be designed to comply with applicable guidance of all relevant public health agencies, which will include the following: the Federal Centers for Disease Control and Prevention (CDC); Proclamations by Governor Jay Inslee; Department of Health (DOH); Office of Superintendent of Public Instruction (OSPI); the Washington State Department of Labor and Industries (L&I) and Clark County Public Health (CCPH). Safety meetings will be held monthly and will include safety training and distribution of materials. Safety committee will include representatives from HEA. All certificated staff will be safety trained prior to return to in-person instruction.

2. Throughout the 2020-21 school year, The District will continue to provide notice to all employees, parents/guardians, and students of relevant health and safety protocols, as they exist at that time.
Should health and safety protocols change during the school year, the District will provide reasonable notice to the Association leadership and affected employees. Students and their families will receive regular communication from the building and/or district regarding health and safety expectations, including but not limited to wearing face coverings, physical distancing, handwashing, and health screenings. The communication must be provided, and in multiple formats, such as email, postal mail, and phone calls. This communication shall be the in the home languages of students’ families/guardians.

3. Throughout the 2020-21 school year, The District will continue to provide Covid-related data and information to the community on a single page published on the District website. This information includes: cumulative data which indicates number of student and staff isolations, quarantines, and positive cases for each school building and support facility since September 1, 2020; weekly updates which indicates number of student and staff isolations, quarantines, and positive cases in a 7-day, Monday-Sunday period; number of reported cases per 100,000 in Clark County as identified from the Clark County Public Health; definitions of “quarantine”, “close contact”, “isolation”, “positive”, and “outbreak” as defined by the WA Department of Health, CDC, and CCPH.

4. Students will be trained in mask wearing, hand washing, social distancing, and all school procedures (including attestations, check-in, all transitions between locations, lunch procedures, etc.) prior to coming for in-person instruction. This training will be live through Zoom Webinar or Zoom Meeting. Some of this training needs to happen during the regular school day. At least one of these trainings will be done by building administrators so that students and families can have their questions answered live.

5. Classroom desks, and chairs in common spaces, will have markings on the ground so that students and staff know where the furniture’s permanent position should be. Physical markers on the floor to encourage social distancing will be placed throughout the building. High-traffic areas will also have some sort of physical dividers to enforce traffic patterns and social distancing.

6. The District will provide a current list of names and contact information for COVID Site Coordinators to the Association. A COVID Site Coordinator or designee must be in the building during school hours. No bargaining unit employee shall act in this role. Employees will report any COVID-related concerns to their COVID Site Coordinator, who will acknowledge receipt of the concern and, where allowable by law, report the outcome to the employee.

7. Classroom capacity: Grades 6-12: The maximum number of on-site students per classroom will not exceed 16, with the exception of larger classrooms (i.e. science and PE classrooms) will not exceed 18. Social distancing will apply. Classrooms that cannot accommodate 16 may be moved to larger spaces. Teachers asked to move will receive move pay in proportion to the number of class periods that are impacted. (i.e. 1 period = .2 x 3 days = 4.5 hours) Grades K-5: Classroom capacity shall not exceed 15 students in the classroom at a time.

The district will ensure that a classroom’s seating arrangement will provide six feet of distance between students and staff. This distance will be measured from the edge of the student/staff chair to the closest edge of the next student/staff chair. The space between student/staff chairs will exceed six feet if space allows.
8. The District will provide the following training opportunities for all Association employees on health and safety protocols then in existence prior to the start of the 2020-21 school year: COVID-19 Safe Schools module.

9. The District will provide the following Personal Protective Equipment (“PPE”) to Association employees when required to meet state health and safety standards: face coverings, face shields, disposable gloves, and disinfectant supplies. Disposable barrier gowns, plexiglass or other non-permeable clear screens, and additional specialized PPE that might be needed (ex. mask with clear inserts) will be provided for specialized job duties when available i.e. SLP, OT, etc. Students and staff shall be required to wear masks at all times when they are in a room with any other people. Employees working with students with a 504 or IEP accommodation who cannot wear a face-covering shall be provided appropriate PPE as described by the Washington State Department of Labor and Industries (LI): Employer Health and Safety Requirements for School Scenarios Requirements, based on the work environment and transmission risk. Students with a 504 or IEP accommodation allowing them to not wear a mask in a general education classroom setting shall be provided appropriate PPE such as a face shield with drape or wrap as defined in the Washington Department of Health K-12 School Guidance #820-105, December 16, 2020, or subsequent recommendation.

10. In the event that the District learns that employees, students, or other visitors to District facilities have tested positive for, or are suspected of having COVID-19 and that contact tracing and communication with potentially affected persons is necessary as directed by the CCPH, those contact-tracing and communication duties will be performed in consultation with the District’s Health and Safety Coordinator and/or District Nurse and CCPH.

11. Hand sanitizer, gloves and disinfectant supplies will be provided in each classroom. Students will sanitize their hands upon entering the classroom. Staff will disinfect desks at the end of each class period at the Middle and High School. Students will not be asked to disinfect desks. Custodians will disinfect classrooms at the end of the school day at the middle and high school. Teachers cannot be present while custodial staff are actively disinfecting classrooms. If a teacher cannot disinfect spaces due to health concerns, a non-certificated staff member will be assigned the duty. Disinfecting and passing time in between classes shall be 10 minutes. Since there will not be enough time or availability of restrooms for educators to use in between classes, educators may call the office to have someone cover their class while they use the restroom during the class period.

Cleaning at the elementary will continue as currently operating; custodians disinfecting between AM/PM classes and at the end of the school day.

12. There will be written and communicated hallway and transition plans for between classes and bus drop off/pick up.

13. Student meals and snacks will not occur in classrooms and lunch will not be supervised by certificated staff. Lunch can be on campus with seven (7) feet of social distancing between chairs. Lunch may be indoors (with all doors or and windows open for cross-ventilation) or outdoors. Special Education students scheduled for full day instruction will be provided a space to eat lunch and/or snacks where they can be socially distanced at a minimum if not greater than seven (7) feet apart. Certificated staff will not be required to supervise student lunches. Students in special
education may eat in the classroom when supervised by a non-certificated staff member with certificated staff approval.

14. Students will be screened prior to entering the classrooms daily. Certificated staff members shall not be required to administer screening protocols.

15. Parents will provide monthly health attestations prior to students coming to school. Administrators will provide weekly reminders to parents in regards to health attestations. The screener will be in charge of asking students to verbally respond to health questions during their daily temperature checks.

16. The school must close and transition to remote learning as recommended in the Washington Department of Health K-12 School Guidance #820-105, December 16, 2020, or subsequent recommendation.

Scheduling and Instruction Plan

1. Staff will provide simultaneous instruction via zoom or other video conference software for remote learners.

2. All students assigned to an educator shall count towards their bargained class size or caseload.

3. An employee may work remotely for any or all of their remote learning instruction time, but is encouraged by the District to work onsite. This does not apply to assignments that require in-person instruction as outlined in this MOU. Should an employee be unavailable to work all or part of their normal contracted time, the employee must apply for the appropriate paid or unpaid leave unless they have rescheduled portions of their day to provide direct support or services, based on student need, outside of their normal contract hours. During remote instruction, employees who choose to work off site will notify their building administrator and ensure that they have reliable internet to perform online instruction. The district will make every effort to provide hot spots to employees who fall into the high-risk category and have unreliable internet.

4. Employees shall have access to their classrooms, technology, and teaching materials in the event of remote learning or assignment to distance only instruction. Teachers retain the discretion to work from home during remote learning or assignment to distance only instruction, and may bring necessary materials home to complete their job duties with the exception of technology beyond their school-issued device i.e. Chromebook, iPad, etc. All materials removed from work sites remain the property of the district and must be checked out to track assets. The district will make an effort to provide hot spots for teachers that have insufficient connectivity at their home if they have been identified as high-risk.

5. Certificated staff will not be required to do any in-person substituting for other teachers during in-person instruction. Administrators will make their best effort to minimize the amount of “cross contamination” that is caused by teachers substituting for other teachers. Classes will not be combined to alleviate sub shortages. HSD will make every effort to expand the pool of substitute teachers available, and will provide training for substitute teachers in the use of the Learning Management Platforms and District safety and health protocols.
6. Where applicable, materials fees and access to building budgets will be maintained. Financial assistance for materials fees and musical instruments will also be maintained. The creation of “materials to go” kits for project-based electives, including the time to create kits (completed within contract time) and a system to distribute, collect, and refill the kits from families will be developed by the classroom teacher and building administrator. When safe to do so, this may include pick-up/drop-off arrangements when projects require firing or other processes that must be performed by faculty.

7. The importance of students actively engaging with elementary specialists and secondary elective courses will be communicated to both students and families. Elementary specialists are encouraged to work together with their general education colleagues and administrators to reach out to students who are not engaging in Art, Music, or PE. Elementary specialists will continue to provide remote instruction during the initial phases of in-person learning.

8. Employees with school-aged children who attend another district will be able to enroll their children in the district at their discretion. If it is not possible for employees to be scheduled on the same day as their in-district school-aged children, the district shall provide childcare for those students through the HSD Community Education Day Camps at cost to the family. When staff are not teaching in-person they may bring school age children to work with them. All children will be required to submit to a temperature check/health attestation upon entering the building. Face coverings are required for all children except in his/her parent’s workspace and without the presence of someone outside the family unit. Physical distancing of at least six feet must be adhered to when in the presence of someone outside the family unit. Children must be frequently reminded by the parent to wash their hands and not touch their face. Children must be accompanied by their parent at all times including use of a restroom. Teachers are responsible for maintaining a professional teaching environment during online instruction. The administrators have the right to rescind this privilege if warranted.

9. During in-person instruction, teachers must have one daily prep written into the schedule and will continue to have Wednesday collaboration in alignment with the collective bargaining agreement. All teachers who are making the initial transition to in-person instruction will be granted one day to plan/prepare in advance of the first day. All certificated staff will be safety trained prior to return to in-person instruction to prepare classrooms, materials and curricula. Teachers shall not be responsible for teaching synchronous or asynchronous lessons during this time. When there is a transition between modes of instruction (remote to in-person or vice versa), teachers will work together with their building administrator regarding the teacher and classroom needs.

9. Teachers will not be required to administer any district assessments during the initial three week window during in-person learning. Teachers will have the option to assign these assessments as asynchronous work.

10. All staff meetings, collaborations, scheduled meetings with administrators will have a Zoom attendance option. No staff shall be required to attend in-person meetings unless otherwise bargained.

**Students with Highest Needs**

1. The Association and the District share a mutual commitment to ensuring educational commitment to all learners. This includes but is not limited to, students with disabilities, students living
homeless, those farthest from educational justice and younger learners. To meet the needs of specific students, staff may at their discretion reschedule nonsynchronous portions of their day to provide direct support or services to students outside of their normal contract hours.

2. Decisions regarding means of service delivery for students with the highest needs shall be based on safety requirements and student progress data. An employee supporting students with high needs (including, but not limited to, English Learners, Learning Assistance Program Students, young learners, and students at-risk) may be asked to provide limited instruction for small groups of students consistent with Aug 5, 2020 Washington State Department of Health decision tree or subsequent revisions or new DOH guidelines. If a member of an IEP team requests in-person instruction for a student on an IEP, the IEP team will work together to determine if in-person instruction is required. For students without IEPs who are referred for in-person instruction, Students of Concern Teams and/or Student Intervention Teams will collaboratively determine if those students need in-person instruction and how it will be delivered in order to limit the amount of exposure to both the student and the staff. Learners who qualify for in person small groups will be determined based on criteria developed in collaboration between program administrators and school teams (eg. IEP teams, Student of Concern team, Student Intervention team, etc). In person, services will only be provided when all safety measures are consistent with DOH, CCPH, and the Governor's Safe Start Washington Plan. At all times, proper PPE must be worn and social distancing protocols followed.

3. The District and the Association agree that employees have the right to a safe work environment. Employees who are asked to perform in-person instruction and have safety concerns may ask the District for accommodations. The District agrees to promptly address concerns and provide the accommodations when available prior to the employee being required to perform in-person instruction. Examples of accommodations could include, but are not limited to: additional PPE, change in location, or seeking another qualified employee to perform the in-person instruction. The District will invite the Association to all meetings with the employee to discuss reasonable accommodations and any disputes over the resolution of safety concerns.

4. Para support shall be provided for all Special Education staff at CBA level regardless of instructional model. Paras will be provided training by the district in technology and Learning Management Systems and Health and Safety Protocols, as well as paid 60 minutes per week (completed within contract time) of collaboration time with their assigned teacher during their regular contracted time if possible.

**Work and Compensation**

1. Employees on continuing and leave replacement contracts will continue to be compensated under the terms of the Collective Bargaining Agreement regardless of the instructional model used during the 2020-2021 school year should they be able to perform their assigned job duties. Should the employee be unavailable to work all or part of their assignment, the employee must apply for the appropriate paid or unpaid leave.

2. The District will compensate Association employees for those supplemental contracts that school/program administrators determine can be appropriately adapted to the instructional mode and health and safety rules then in effect after consultation with the employee who normally fulfills the contract. In advance of awarding a given supplemental contract, an employee and their building administrator will collaboratively confirm necessary adaptations and potential pro-rations.
of contract. Any disputes about adaptations shall be forwarded to the Superintendent and Human Resources Director for further review and consultation.

13. The 3% MOU balance will be waived for concession included in this MOU.

Leaves

Covid 19 Exposures

1. Employees who are subject to a federal, state, or local quarantine or isolation order related to COVID-19; have been advised by a health care provider to self-quarantine due to concerns related to COVID-19; are experiencing symptoms of COVID-19 and are seeking a medical diagnosis; or are caring for an individual who is subject to a federal, state, or local quarantine or isolation order related to COVID-19 or who has been advised by a health care provider to self-quarantine due to concerns related to COVID-19, shall be offered the following:

   a. If the employee has been assigned to work in-person with students, and the employee tests positive for COVID-19, the employee will receive up to ten (10) days per infection (max 2) for a total of up to twenty (20) days of administrative leave before having to use leave options as outlined below.

   b. If the employee tests positive for COVID-19 and by doctor’s order needs to remain out of work extending beyond the time permitted in a, the employee may use their own accrued leave; shared leave; PFML; or FMLA if deemed eligible; Worker’s Compensation, if applicable per Employment Security Department rules; unpaid leave of absence for the period of the temporary disabling condition; long term disability benefits; or possibly unemployment under Pandemic Unemployment Assistance.

   c. A healthcare professional’s note will be required, consistent with the collective bargaining agreement. It is understood that employees incapacitated by illness may not be able to provide prompt documentation.

2. Teachers who are required to quarantine who are well enough to work shall continue to provide remote instruction in the event their class is quarantined or may be provided with an alternative assignment for the duration of their quarantine in lieu of Administrative Leave. A substitute shall be provided onsite if the students are not quarantined, only the teacher, to provide support to students in the classroom receiving zoom or other video conferencing instruction.

Accommodations for High-Risk Employees:

1. Employees in high-risk categories shall be offered remote assignments whenever possible first and may be given out-of-endorsement waivers upon district discretion. When remote work is unavailable, the District will consult with the employee and the Association to explore reasonable accommodations. Medical benefits will continue through the Governor’s State of Emergency Proclamation.

2. No remote assignment will be awarded to any member unless it has been first offered to all employees in high-risk categories.
3. High Risk Employees: Employees who are at higher risk of severe illness or death from COVID-19, as that term is defined by the Governor’s Proclamation 20-46.2 or a subsequent, binding proclamation, may choose to come to work at a District worksite when required by the employee assignment or may choose to access any or all of the following benefits under the terms of collective bargaining agreement or law:
   
a. Alternative work assignment determined by the District that may be performed from home, if available
   
b. Leave for illness, injury, or emergency (i.e. accrued sick leave)
   
c. Personal leave
   
d. Have the option of shared leave (see #4)
   
e. Unpaid leave of absence (with the district continuing to pay their portion of benefits) (see #5)
   
f. May apply for unemployment, eligibility is determined by Employment Security Department

4. The District will advise teachers that do not receive alternative assignments of the appropriate leave options available under the CBA, and Federal and State Law, including Emergency Paid Sick Leave, Paid Family Medical Leave, Paid Sick Leave, Shared Leave, and Leave of Absence options, and shall aide them in accessing these options.

5. Benefits: Employees eligible as of February 29, 2020, for the employer contribution towards benefits offered by the school employee’s benefits board shall maintain their eligibility for the employer contribution under the following circumstances directly related or in response to the governor’s February 29, 2020, proclamation of a state of emergency exists in all counties in the state of Washington related to the COVID-19 as defined in RCW 49.46.210(2). These requirements expire when the governor’s state of emergency related to COVID-19 ends or if until such time the relationship between employee and employer ends.

Hockinson Virtual Academy

1. As this is a new endeavor communication and collaboration between the Association and the District is essential. This section of the MOU must be revisited and possibly renegotiated by November 2, 2020.

2. Hockinson Virtual Academy is an online instructional format that enables teachers to monitor and support online learning for the entirety of the 2020-21 school year. The District and the Association will work together to determine whether or not there is a demand for HVA teachers to come back to the classroom for in person learning or transition to remote learning due to enrollment. HVA teachers are not obligated to return to in-person teaching for the 2020-2021 school year.

3. An elementary HVA teacher will monitor no more than fifty (50) students on their caseload. For secondary teachers, caseload will not exceed fifty (50) students per period based on a five (5)
period day and will not exceed 185 students total for a full-time HVA teacher. If a teacher is split between HHS Remote and HVA, caseloads will be adjusted based on the percentage of the split. Overload language in the CBA will apply if these caseloads are exceeded.

4. Teaching HVA in the 2020-21 school year is considered temporary. A teacher’s assignment will return to the original 2020-21 assignment (as determined in June 2020) for the 2021-22 school year.

4. All other working conditions remain the same.
